

BACKGROUND

According to the world happiness Report of 2022 Finland is the Happiest country in the world. The northern part of Europe including countries like Sweden, Finland, Denmark, Norway and Iceland also score very high in the report. I want to find out the reason behind this and which of the 5 countries has the happiest people.

DATA

The data I'm going to use is from the World Happiness report of 2022. I will also use gapminder to get this data.

GAPMINDER

PROBLEM STATEMENT

The Northern countries consistently rank in the top 10 of the World Happiness Report. However, it is unclear what specific factors contribute to their high levels of happiness and how the score has changed over time. Therefore, the aim of this data story is to identify the key drivers of happiness in Northern countries and comparing their happiness scores from 2012-2021.
